DISC
STAKKA

THE FUTURE OF CD AND DVD STORAGE
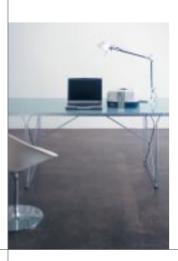

Disc Stakka makes traditional disc management obsolete

That's because Disc Stakka is an automated carousel that gives you a simple and efficient way to manage and protect your disc library, large or small.

STORE, PROTECT AND RETRIEVE YOUR DISCS

Each unit stores and protects up to 100 data CDs, DVDs, music or game discs and links to your computer via a USB connection.[*] The bundled OpdiTracker software enables you to search its database of stored discs by title, keyword, directory or file name to find and eject any disc within seconds. Perfect for businesses, studios and home use, with Disc Stakka you need never waste time searching for a disc again. Disc Stakka means productive disc management!

BE MORE PRODUCTIVE

Find discs fast. Searching through dozens of pouches or shelves looking for a particular disc can be frustrating and unproductive.
With Disc Stakka and its bundled OpdiTracker software, you can find and eject any stored disc within seconds.

BE BETTER PROTECTED

Save valuable discs from loss or damage. Permanently losing precious software and data because of lost or damaged discs is a thing of the past. Disc Stakka stores all varieties of 12cm discs and protects them from harm.

BE BETTER ORGANISED

Save space and reduce clutter. Tired of having all your discs strewn across your desk in disorganised piles? Disc Stakka gives you an efficient way of storing all your discs in one place. Disc Stakka keeps your desk clean of clutter.

BE MORE SECURE

Control and track access to your discs. The OpdiTracker software comes with a password protection system that enables you to control access to each Disc Stakka unit.

SIMPLE EXPANSION

Your first Disc Stakka unit holds up to 100 discs, and links to your computer via a single USB connection that supplies both power and data.*

Built-in connectors allow you to stack units up to five high to create a tower that holds up to 500 discs without needing additional cables or desk space.

Over 100 of these towers can be linked via powered USB hubs to store, manage and protect more than 50,000 discs.

The intuitive OpdiTracker software automatically recognises new units as they are added to the system, making management of your entire disc library a breeze.
